YEAR OF RECORD

1901 - 1929

**DELAYED
BIRTHS**

STATEMENT

This is to certify that the microphotographs appearing on this film are true copies of the original records as listed above.

It is the intention of the State of New Jersey, Division of Vital Statistics and Administration to carry out this project in the following manner: (a) One set of original negative microfilm will be stored with the Division of State Library for preservation and protection. (b) A second set of microfilmed copies will be sent to the Division of Vital Statistics and Administration and used as a working record. (c) The original paper records will be transferred to one of the State record storage centers.

The purpose of filming these records is to protect and preserve this vital information as the paper is rapidly deteriorating and will soon reach the point of illegibility.

The microphotographic processes were accomplished in a manner and on film which meets the requirement of the American Standard Specifications for Safety Photographic Film, PHI.25-1956; for permanent microphotographic copy. The microfilm project will be under the direct supervision of the Division of State Library, Archives & History, State of New Jersey.

H. Morgan Smith
State Registrar of Vital Statistics
State of New Jersey
1971
